No, I think we are good with those. There was one that was a back and forth between me, the regions and OAQPS before we came to a decision on a question from the regulated community. I am claiming that as deliberative. The others were much more straightforward than the ones you reviewed. If you didn't see anything in those then we are good. Of course, if you wish to review them you may. Let me know.

I finished reviewing what you sent me. What about the other documents in relativity. Have you done a further cut? Do we need to get back together to finish reviewing those?

I started reviewing them. Is there a drop dead deadline.

Here are the emails that I need to see if you wish to claim a privilege for withholding. Thanks.
